OVERVIEW

One of the most crucial duties of the company is to properly and promptly compensate its employees. Getting it properly makes the employee happy.

Most timekeeping software might not be best fit for you, Because it is not normally built to manage contractual personnel, some timekeeping and payroll software may be rather expensive when you need to grow your workforce during particular seasons. That's why we created the chromatic-tktool, a piece of software designed to easily calculate employee compensation for contractual and task-based employment.

We provide the finest value for timekeeping on the market.

Look at the contrast.

COMPANY	price in dollars (per staff)	per staff	30 employees per month cost
https://omnihr.co/pricing/	\$8	432	12,960.00
https://hubstaff.com/pricing	\$8.33	449.82	13,494.60
http://payrollhero.com/pricing	\$5.50	297	8,910.00
